Art Unit: 1743

1. A request for continued examination under 37 CFR 1.114, including the fee set forth in 37 CFR 1.17(e), was filed in this application after final rejection. Since this application is eligible for continued examination under 37 CFR 1.114, and the fee set forth in 37 CFR 1.17(e) has been timely paid, the finality of the previous Office action has been withdrawn pursuant to 37 CFR 1.114. Applicant's submission filed on December 26, 2006 has been entered.

2. Claims 48-49, 73, 75-104, 106-126, 152-198, 200-219 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

In claim 48, lines 5 and 10, "the dispenser" is unclear because it is unclear if the claim is limited to a single dispenser, or to the one or more dispensers previously recited. See also claim 207. In claim 48, line 11, "the monomer or polymer" is unclear because it is unclear if the claim is limited to a single monomer or polymer, or to the one or more solutions previously recited. See also claim 152. In claim 48, line 11, "to allow" is unclear—does the dispenser perform the dispensing steps as claimed, or is the device merely capable of such? Is the device operative to perform the steps, or is the claim language merely an intended use statement? For purposes of examination, the claims have been interpreted as the claiming an apparatus operative to perform the steps.

3. Applicant's arguments filed December 26, 2006 have been fully considered and they are persuasive, assuming clarification of the claims as discussed above.
